CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1843; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on S. Brannan & Co., at Sacramento City, or on the undersigned, at the counting room of E. Mickle & Co., Clay street wharf, san Francisco. HIRAM GRIMES.

NEW YORK OF THE PACIFIC.—The City of New York, of the Pacific, situated at the head of ship navigation upon the bay of Suisun at its junction with the rivers Sacramento and San Joaquin, has been most accurately surveyed by Captain R. P. Hammond, U. S. A., and laid out in the most beautiful and convenient manner, and maps have been preparsd by E. H. Rowe, Esq., engineer and land surveyor, pointing out clearly each and every lot within the surveyed limits of the city, and the proprietors now offer them for sale to the public. Along the entire water front of the city, a public street is laid out one hundred and fifty feet in width, beyond which no ground will ever be sold. and the proprietors therefore guarantee to the purchasers of all lots fronting on Water street, that no building shall ever be erected between their purchase and the water. There is no point along the entire water front of the city at which vessels of the largest class cannot lay within thirty feet of the bank of the river, and there are but few points where a large class of vessels cannot come immediately to the bank and discharge their cargoes, and at all points where this cannot be done, wharves will be built by the proprietors as soon as materials for building can be procured. The centre street of the city running North and South is one hundred feet in width, and all the other streets seventy-five feet; the lots are fifty feet front, by one hundred deep, and there is not a lot within the survey unfit for building purposes.

There are three public squares laid out within the survey, which will be given to the city, and the proceeds of the sales of all the lots fronting on the squares will be appropriated to the erection of public buildings. The titles to this property are perfect and complete in every particular.

There will be established immediately at the city a record office in charge of a competent official person authorized to take acknowledgements and record deeds, and where the original title deed to this property will be recorded, and where it is desired that all deeds for lots purchased should be immediately recorded.

The purchasers will be required to make improvements within a specified time.

The advantages of the location of this city over any other above San Francisco, are too well known to all who have either passed up the river Sacramento or San Joaquin to require any comment from the proprietors; but to all persons who have not had the opportunity to examine the site, we say that there is not in all California a point combining so many advantages for business purposes, with the advantages of a fine, healthy climate, dry soil, free from inundation, at every point, throughout the year, a superior harbor for vessels of the largest class, and an abundant supply of pure water at all seasons. To these advantages, we will add that permanent arrangements have been made for two steamers to commence running in all the month of August daily from San Francisco to the new city; and also two steamers of very light draught of water with tow boats prepared to navigate the Sacramento and san Joaquin, and their tributaries, from New York, below which they will not come. For lots or any information connected with the city of New York of the Pacific, apply at the office of the proprietors in Portsmouth square, san Francisco, and at the city of New York.

TOWN OF SUTTER.

(LATE SUTTERSVILLE.)

This town has has just been re-surveyed and laid out by Lt. J. W. Davidson, of the U. S. A., and lots therein are now offered for sale here, by the subscribers, and at the Town by George McDougald & Co. This town is beautifully situated upon the east bank of the Sacramento, within about two miles of Sutter's Fort, having a fine road leading therefrom direct to the mining region, and is some six miles nearer the mines by this road than any other embarcara point upon the river. A direct road is also being made on the opposite side of the river, which will, when completed, save 74 miles land travel to the mines The locations upon the river banks for business purposes are never subject to overflow by the highest water known on the river, and the high ground back is the most desirable location for a residence of any point that can be selected upon the banks of the Sacramento.

TOWN OF SANTA CRUZ.

The survey of this Pueblo, one of the oldest in California, has recently been corrected and mapped by Lieut. Williamson, U. S. A. It is situated in the Bay of Monterey, and presents more advantages for an agreeable residence than any other in California, for it is well known that at no part of the whole country is the climate purer, water better, soil more fertile, and where so unlimited a supply of lumber and timber for building and fencing purposes can be procured at prices nearly as low as the United States. The town and planting grounds are laid out in lots of 50 varas square, a large number of which are now offered for sale at very moderate prices by the subscribers.

SAN FRANCISCO.

Some of the most desirable locations for private residences or business purposes in this town, can be purchased or leased of the subscribers.

Maps of the city of New York of the Pacific, the towns of Sutter, Santa Cruz, and san Francisco can be seen at the Land Office of the subscribers on Clay street, south side Portsmouth square.

THE HOSPITAL

OF SAN FRANCISCO.

W. H. STIVERS, M. D. } Resident
J. F. THORP, M. D. } Physicians.

Main entrance on the east or lower side of Stockton street, between Clay and Sacramento streets, south-west of and near the Post Office.

THIS establishment is composed of an extensive range of buildings recently erected, and formerly, in part, occupied for a Hospital by our fellow-citizen Dr. Melhado. Its arrangements are, in all respects, most commodious; on a scale, indeed, suited to the various and rapidly increasing wants of both citizens and strangers. The position is one of the best that could be chosen—elevated, healthy, and easy of access, with excellent water, and commanding a fine view of the bay. There is also attached to the premises an elegantly fitted up Bathing House, where cold, warm, hot and medicated baths may be had, at all hours. The Baths for the use of the public are entirely SEPARATE and DISTINCT from those devoted to patients

The Hospital of san Francisco is the FIRST, and, in fact, the ONLY Institution established on the Pacific coast, on a broad, liberal and sure foundation. It is a refuge for the sick—a home for the invalid, where comfortable quarters, good nursing, watchful medical treatment, and suitable diet will do all that human effort can do to alleviate suffering and restore to health.

The Terms are placed on the most moderate basis, being in truth, about one-third to one-sixth less than the expenses necessarily encountered by the sick, under any other arrangement.

TERMS.

1st class, one in a single room, neatly furnished, $16,00 per day.
2d class, two in a room, neatly furnished, each $10,00 per day.
3d class, in wards, neatly furnished, each $5,00 per day.

☞ In all surgical cases, and cases of Insanity, there will be an extra charge.

ALVESO.—The town of Alveso, situate at the head of the bay of san Francisco, will shortly be offered to the public in lots suitable for building purposes. The locality of this place possesses advantages of a nature so positive and apparent that a brief description must satisfy every one of the certainty of its becoming, ere long, a town of the highest importance. At the head of the great bay of san Francisco, on the Guadalupe river—a stream running directly through the centre of the town, and navigable at all seasons of the year to vessels drawing 12 feet of water—the depot and business headquarters of the two finest valleys in California—the santa Clara and Pueblo—where everything required for their already numerous population, must be received; convenient of access to the gold mines, and directly on the route between them and san Francisco; with a climate unequalled even in Upper California; with pure water; free from inundations at all seasons; leagues of woodland within a convenient distance, with mills which even now furnish lumber at one-third the price in san Francisco. The town of Alveso must grow into importance. The wants of the extensive country around, constantly increasing, require a commercial town at this point—the only one where such a town can be located.

The place will be immediately surveyed and laid out into lots of convenient size, by C. S. Lyman, Esq., surveyor, and maps will be published for the inspection of the public as soon as practicable. Contracts have been entered into for the erection of warehouses and buildings, and a substantial bridge is now being erected, connecting the two portions of the town. The title is perfect and indisputable, having been derived directly from the Mexican government, to persons who have since resided on the premises for nearly twelve years. Persons desiring to purchase will have preference in choice of lots in the order of the reception of their names by the undersigned. Address, post paid,

All carriages, wagons, carts and harness, will be ranged in order, and sold by catalogue, as well as a full description be given of all horses, mules and cattle.

In making this offer to the public, the subscriber has been induced from the circumstance that the raiser and seller of horses and cattle have much difficulty in properly disposing of them, and the buyer often deceived in that which he purchases, whereas by having a public auction mart for this business, the auctioneer stands between both buyer and seller, and prevents dissatisfaction; he therefore trusts that the object thus put forth will meet with patronage.

Goods, wares, and merchandise, will be received at all times, for the regular day sales of merchandise.

First regular sale of horses, carriages, &c., on Saturday, the 20th Oct.

LOTS FOR SALE *in the city of south San Francisco*, offering the greatest inducements to persons recently arrived, who are desirous of locating themselves with superior advantages. The city of south san Francisco is situated two miles south of the city of san Francisco, immediately on the bay, having every advantage for the shipping, and is supplied with wholesome water in great abundance. A stream of sufficient quantity to supply both cities and all the shipping that ever may lay in their harbors, forms the northern boundaries of this place—is quite accessible and is about being conducted into reservoirs for that purpose. The harbor is more securely protected from the winds than the harbor of san Francisco, and ships of the heaviest burthen may at all times of the tide lay within a boat's length of the land at many points, and quite close along the whole front of the city, affording the best facilities to discharge cargo. The soil is free of dust, and is of a rich clay nature. There are extensive stone quarries, and springs of pure running water are in many places. The surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay. The only good road from the city of san Francisco to the Pueblo of san Jose passes through south san Francisco, crossing the mouth of Mission creek and the mouth of the stream of fresh water already alluded to On this road you travel along a beautiful valley of firm grass land to the puertesuelo, a distance of less than two miles. Persons desirous of purchasing lots, which will wholly equal in value those of the City of San Francisco and provide for themselves residences on moderate and easy terms can do so by calling at the office of the undersigned in Clay st., where full particulars will be given them. The Writhings of Faction.

We regret to perceive indications however unimportant, coming from any quarter, that elements are to be mingled in the approaching election, and a spirit to be exhibited in regard to it, which the patriotism and intelligence of California should frown down with indignation, as utterly unworthy of her present position and her future destiny. We deem it especially unfortunate that a spirit so discreditable should by any accident be permitted to find utterance through any portion of the public press of this country. Yet it would seem that such a state of things is before us.

From the very moment when the public attention of California fixed itself upon the subject of her State Organization and her admission into the Union, the minds of intelligent, liberal and reflecting men among us were spontaneously and almost universally turned towards a distinguished gentleman then and now resident among us, as a man eminently fitted to promote her interests and to maintain her rights on the floor of the Senate of the United States. There was nothing of partisanship in this preferance. No sectional nor party organization had produced it. It had sprung up and made itself general in the sentiment of our community primarily from the consideration of a long political career is specially devoted to the furtherance of public interests and the promotion of public objects which lifting themselves far above the party jealousies and personal aspirations of the hour—may be called, in view of our present situation, peculiarly *Californian*. This preference had been strengthened by a vivid recollection brought to this region in the minds of observing men from all sections of our country, of a series of *recent* measures all conceived in a spirit of wise and comprehensive statesmanship, all pertaining directly to the development and growth of this country, and all advocated by the same individual upon the floor of Congress and elsewhere with a singular combination of perseverence, liberality and success. And finally this preference had been confirmed and settled in the mass of the public mind by the presence of the gentleman referred to, among us, by the sacrifices which he had made to cast his future lot with that of California, by his ready grasp and powerful presentation of her true policy, by the effect and the direction of his labors here, and most of all, perhaps, by that union of force of mind and fairness of spirit, which wherever it convinced a disputant, at the same time created a friend. Such has been up to the present moment the career of Mr. King in California; and such is now his position before the people.

When therefore we see in any public journal—what we see in the Alta Californie of yesterday—an attempt to stigmatise a decorous and temperate expression of our *concurrence* in this general sentiment of our community in respect to Mr. King, as "a *forcing* of this gentleman upon the people of California as United States Senator," as if upon the ground that "he is the only man in the country who can read and write," we turn away from such vituperation with a feeling of disgust which would rise into indignation, did it not at once sink into contempt. When in addition to this we find the same Journal in another article dealing out insinuations, not the more respectable in that they are dark and indeffinite, about "broken down politicians," "ex-Members of Congress," "self-serving missions," "uncompromising selfishness," and "soul-sickening arrogance," we do not deem it necessary to say one word in reply further than to assure the Alta California, that we have no sympathy with "incompromising selfishness" or "soul-sickening arrogance" whether exhibited by a "broken down politicion" *in* Congress, or by a politican who breaks down in his attempt to get there.

But enough and more than enough in relation to such topics as these. Were we acting merely as partisans we should ask nothing better from our opponents than that they should raise against us in this community such weapons as the Alta California has in these articles seen fit to employ. We should feel that in such a battle, the moral sense and intelligence of Californians would be to us at once a sword and shield. But as Californians, we sincerely deprecate the introduction into our politics, at any time, and most of all at this time, of a spirit and language of which honest men should be ashamed.

☞ A report has been current about town during a day or two past, to the effect, that, a nomination for U. S. Senators, Representatives, &c., had been made at San Jose, by the members of the Convention, since their recent adjournment at Monterey. We are assured by several gentlemen, members of the convention, that no such nomination has been made, or meeting held.

The union of Californians for the sake of California.

Mass Meeting in Portsmouth Square.

The citizens of California friendly to the election of the Hon. THOMAS BUTLER KING, to the Senate of the United States, are requested to assemble in Mass Meeting in Portsmouth Square, on Tuesday, the 23d inst., at five o'clock in the afternoon.

(We very much regret our entire inability to find space in this morning's paper for the very numerous list of signatures appended to the above call, which has been left at our office, and may be seen upon our desk. At a rough estimate, we judge the names already signed and left with us, to number about *five hundred*; and we understand that several large lists have not yet reached us. We trust, however, that they will all be handed in in time to be printed on an extra sheet, which we shall issue for the purpose on Monday.)

"The Turned Head."

There is a good story of a crazy man, who fancied that his head was set on his shoulders back-side foremost, and a capital farce has been made out of the antics he is led to perform in view of his supposed metamorphosis. His clothes are huddled on wrong side before, his hands grope and clutch the air blindly behind him and he walks like a "crab backwards." It is the very plight of our neighbours of the Alta California in the last number of their sheet now before us. That number contains *three* separate editorial articles all written *at* the Pacific News, and the platform of public policy which it advocates. That platform, is as our readers know, "*The union of Californians, for the sake of California!*"

The *first* charge which the Alta California brings against us as the advocates of this policy is, that in it we are "*attempting the basis of party structure.*"

Its *second* charge against us is that in this policy *we are politicals*, "*wire-workers, renouncing all party principles and appellations.*"

So then, henceforth we are to understand, that in the Alta California office, just so soon as they see a man "*renouncing all party principles and appellations*" they forthwith set him down as guilty of "*attempting the basis of party structure!*" These two statements occur in *one* article of about twenty lines. It is bad when a man cannot write two paragraphs without *flatly* contradicting himself. It is the farce of the "*Turned Head*" over again.

But the Alta California goes on to take a still higher flight in the way of consistency. In this same article it charges us with "a disposition" as "scheming factionists" "to mark *the lines of distinction*, raise the necessary *hue and cry* and thus early sow the seeds *of division and political discord*." But in its very same sheet, and in the next column but one, it writes of us as follows:

"The facility with which the *Democratic* "*News*" man *has buried his principles*, and is at present trying to forestall the *overwhelming Democracy* of *California* into the support of an *ultra Whig*, is a matter between him and his old friends, and for which, doubtless, they will call him to an account in a few days at the ballot-box."

So then, the *charge* is, that we are "sowing seeds of *political discord*," and the *proof* is, that we have "buried" our own *party* "*principles*." The *charge* is that we are drawing factious "*lines of distinction*" and the *proof* is that we are calling on the *Democracy* to support an "*ultra Whig!*" The Alta California's *logic* being so *ricketty* as this, our readers will not expect from it any great accuracy or precision in its statements of *facts*. It is enough for us now to say that both of the main assertions contained in the above extract are *manifestly* exactly opposite to the truth. Every man who knows anything at all of the Pacific News, knows that it has *not* "buried its Democratic principles." And every man who knows anything of the Hon. Thomas Butler King knows that he is *not* an "*ultra Whig*." Indeed in the position in which his friends have now placed him before the people of California; he occupies no party ground whatever; he expressly refuses to occupy any such ground; and *for this very reason* the masses of honest men *of all parties* among us, are *united* in the determination to place him in the Senate of the United States, as the Representative and supporter in that body of the great and special interests and objects of California—not a single one of which *touches*, or *tends* to touch, any one party principle or issue whatever. We have shown how *well* and how *consistently* the Alta California can *reason*, in its attempt to show this spirit of conciliation and union on the *California Platform* to be the work of "*scheming factionists.*" The people of California will assuredly determine for themselves how they will receive and how they will treat such an accusation.

☞ "One of the People" sends us his No. 2 which we gladly publish, and we commend to our readers the elevated, just and liberal spirit in which he writes. We hope to see him frequently in our columns.

(NUMBER 2.)

TO THE EDITOR OF THE NEWS:—I can remember, nor am I by many months one of the "oldest inhabitants," when merchant vessels in the harbor of San Francisco were as "few and far between" as Campbell's Angels visits, when little or no difficulty was encountered in navigating one of the largest class Mail Steamers through its entire shipping, and when the most "ample room and verge enough" could be enjoyed any where between Clark and Rincon points. I can remember when from Clarks point to the Parker House, one might make one's way without any, the least obstruction simply by avoiding the Bay, now Montgomery street, climbing the hill, now Broadway street, passing on and descending the hill again, now Kearney street, leaping over the "slue," now Jackson street, and "thence running south one hundred rods to the"——end. I can remember when the huge hills circumjacent were bare hills and *nothingelse*; when the streets now teeming with an active, busy, bustling population were mere parallel lines drawn in red and blue ink on pasteboard, when a shanty here and there at "magnificent distances" was all that, in the way of improvement, met the eye, and when in a word, San Francisco as she *was* presented absolutely nothing of what San Francisco *is*.—As with its town so with the territory.—At the next session of Congress application will be made for the admission of California into the Union of States—an application in which are involved great interests as well of the Territory as the Union itself. Had not an ounce of gold been discovered throughout that region, prolific of wealth, which has already, so liberally contributed substantial support for the world's commerce and from which millions more are expected to be derived, yet, the acquisition of California, in a great national and only less great commercial point of view, must still have been regarded as one of those muster strokes of public policy which, at the time of its accomplishment, nothing but a want of elevated political sagacity could have overlooked, and nothing but a contracted, narrow, sectional selfishness would have resisted. If its importance in every respect has not yet become perfectly apparent, if the fact that the best harbors on the coast of the Pacific, where the navies of all nations may find safe anchorage, are thus placed in our possession, that the first step is taken towards opening a channel through which the immense commerce of the East and West may flow on to an easy, rapid and unobstructed interchange—that this grand "internal improvement" must commence on the Pacific within the jurisdiction of the United States, cross the Rocky Mountains, traverse from West to East the entire Union, paying vast tribute to the sagacious policy which conceived and the unequalled enterprise which consumated the work, of all these advantages, secured by the acquisition of California, are not yet appreciated it requires no seer to foretell that but a short time shall elapse before conviction of their vast importance will be forced upon the most sceptical. By the acquisition of this valuable tract of country the government at home intended to effect and did accomplish more than a mere extension of territory. Great results were intended to proceed from and great results have followed this acquisition, but the end is not yet. California herself has a responsible work to perform and it becomes, therefore, a question of magnitude what shall be the course of policy to be pursued by her citizens when their state shall have taken its stand by the side of its sisters? Beyond all question they have a high duty to discharge. The union of independent sovereignties of which they are soon to constitute a material part, are prominent actors in the imposing drama of human government, and Californians should look well to it, that when their *sovereignty* steps upon the stage, her part shall be that of a liberal, extended, high-toned *democratic* policy—a policy which won her from inglorious obscurity, which opened her magnificent harbors, which built her towns and cities, peopled her solitudes, developed her immense wealth and resources, elevated her to the distinction she now occupies and to which must be attributed all that she may hereafter attain.

I shall have more to say on this subject in my next communication.

ONE OF THE PEOPLE.

INTERESTING TO MERCHANTS.—A case was recently decided in the Court of First Instance, which cannot fail to interest merchants, and consignees generally.—The plaintiffs shipped goods at New York for this port, and not receiving them here brought an action for damages against the vessel. The point at issue was as to the measure of damages which the plaintiffs were entitled to recover in such a case,—they contending that they were entitled to the fair market value of the goods here, or about 100 per cent. upon the cost in New York. It was, however, decided that the rule of damages in such cases, in the absence of fraud proved on the part of the Master or owners, should be the cost or invoice price in New York. This may be good law, but it certainly looks like bad equity, and there can be no doubt that under such decisions great inconveniences will happen to commerce, and great profits accrue to ship masters who will be unable to find valuable goods until after they have, by paying damages for their non-delivery, made them their own to speculate upon. We are pleased to learn that the counsel for the ptaintiffs, Mr. Judah, proposes to test this decision, by carrying the case to the Appellate Court. A MERCHANT.

The Naval General Court Martial convened on board the U. S. Sloop of War Warren at anchor in this harbour on the 8th inst., for the trial of a boats crew, consisting of five seamen belonging to the U.S. surveying Schr Ewing, after a patient and thorough examination of the charges have found the accused, John Black, Jonathan Biddy, William Hale, Peter Black and Henry Commerford, guilty of Mutiny, and deserting with a boat belonging to the United States, from which they had previously thrown overboard Passed Midshipman William Gibson. The Court have adjudged the five persons above named to suffer death—and we learn that the sentences will be carried into execution between the hours of ten and two o'clock on Monday the 22nd inst. by hanging at the yard arms of the several ships of the Pacific Squadron now in port.

SUISUN BAY AND NAW YORK OF THE PACIFIC.—The proprietors of New York of the Pacific have sent us a beautiful Chart of the Bay of Suisun from the Straits of Karquinez to its junction with the San Joaquin, at which point New York of the Pacific is situated. This chart was lithographed in the United States from the original chart of the surveyors, Messrs. Hammond, Sherman & Blair, and we are informed the enterprising proprietors have one thousand on the way here for distribution to the ships and vessels navigating the Bay of Suisun. This is the only chart ever published of a bay or river of California, except those of Capt. Wilkes, of the U. S. Navy, and Capt. Beecher, of the Royal Navy, and they were by no means as useful as the one before us. The proprietors of this beautiful and thriving city deserve success in their spirited enterprise, and are justly entitled to the thanks of the community for the benefits they have conferred upon the commercial interests of this section of California.

Police Intelligence.

[REPORTED FOR THE PACIFIC NEWS.]

James Buchanan, arrested by officer Manning, for being drunk. Fined by Alcalde $5 and discharged; said he would "join the temperance society if there was one in this town; he felt his situation, was very dry, after being discharged, and started for the Exchange.

Wm. Mason, arrested for being most dreadful drunk. He concluded there was no authority for arresting a man, in this town, for being drunk after dark, as it was a common practice for "all hands," ministers and all, to get drunk once a week, and this was the night. Fined $5. Jas. Laley, arrested by the intreped Manning, for being most religiously drunk; said he belonged to the church and had been attending a "love feast," and the liquor was so strong and very poor that he believed he had had a rush of blood or (rum) to the head. Stands committed.

John Briggs, arrested by officer Sweeney, on the square. He was most piteously drunk, and would insist upon being introduced to the Alcalde. The officer kindly consented to introduce him. The Alcalde told him he had acquaintances enough, and did not wish the introduction, but told the gentleman he would introduce him to Mr. Fallen, Chief of Police, who kindly gave the gentleman a bed, upon a bench, in the school house.

Lovett, a Sandwich Islander, arrested by Barmore and O'Neil, for fighting at the "Veranda," fined $5 and discharged.

An affray occured on Thursday eve, in front of the "United States Hotel." The Assistant Purser of the U. S. frigate Savannah, C. H. Ellas, was passing the Hotel, when a discharged sailor from the Savannah, who was standing at the time on the stoop, sprung upon him and would have given him "Jessey," if Ellas had not been as quick as a flash. A mob of sailors fell upon Ellas, who he drew a small pistol and fired. The ball struck a button of the sailor's jacket and glanced off, when the sailor cried "I'm shot!" The mob then rushed upon Ellas, but nothing daunted, he fought like a hero, against twenty men, retreating to the hotel, when Mrs. King, the lady proprietress, and the only man in the crowd, came to his rescue and handed him a pistol. When they saw Ellas had arms and could defend himself the crowd backed, and Ellas came off in triumph.—Mr. Ellas owes his life to Mrs. King, and says "God bless her."

The report of the affray between Colvan the police officer, and Pollock, who has since died, must be postponed until after the investigation by the Alcalde, when we shall give the particulars in full.

CONVENTION PRINTING.—We have had offered to us, on two occasions, during the sitting of the Convention at Monterey, the printing of that body—or rather have been applied to on two several occasions for our terms for the execution of said work. The first application was by letter from the chairman of the committee on this subject, the second by a gentleman delegated to attend to the business of getting the printing executed, who visited us personally and exhibited the manuscript copy of the Constitution, &c. We have, however, been under the necessity of declining even to enter into a negociation for the execution of the job, in consequence of the great supply of work furnished us by the commercial men of San Francisco and elsewhere—having sufficient at all times to keep us extremely busy day and night. Our press has not been stopped, except on Sunday's, since we commenced business, and so long as the commercial men of San Francisco furnish us with work, we think ourselves bound to execute it in preference to taking State Printing, although in the latter case we might probably realize a much greater amount of money for the time being, than we obtain for general work. We acknowledge the courtesy of the members of the Convention towards us, and regret extremely that we are so situated as that we cannot present to the public this Convention work, also, viz., the Journal, the Constitution, &c. in a style of printed elegance that would be as gratifying to us as to them. We have, however, made arrangements whereby we shall soon be enabled to meet every call in our line—until then we must be content with a business comparatively limited.

LINES,

Written upon arriving at the Island of Juan Fernandes, May 4, 1849.

Once more beneath my bounding feet
I feel the freshly-springing grass;
Once more the wild-bird's song doth greet
My ear from every glade and pass.
I hear again the mountain breeze
Sigh gently through the linden trees,
And catch the sound of purling rills,
As rippling o'er their pebbly beds,
They flow in murmurs from the hills,
That rear in air their giant heads—
Then softly steal away unseen
Beneath the o'erhanging evergreen.

Thus, after many weary days,
Upon the broad and bounding sea,
Where all that meets the constant gaze
Is wave and sky, incessantly—
How welcome the enchanting sight
Of emerald foliage spread around,
As glist'ning in the morning's light
With sparkling dew each leaf is crowned!
And O! with what a lightsome heart
The *late-imprisoned wand'rer* roves
O'er hill and dale, from part to part,
Yet lingers in the orange groves,
Where bud and blossom, side by side
With ripened fruit, adorns the trees:—
"E'en Solomon, in all his pride,
Was not arrayed like one of these!"
'Tis here he breathes the rich perfume
Of violets in their early bloom—
The moss-rose here, with varied hues,
In all its native grace he views.
The arching vine, with leaves out-spread,
Yields ample shade—while o'er his head
The humming-bird, with restless wings,
Extracting sweets from flower to flower,
Through all the air her incese flings,
And spreads around an odorous shower!
How often in my boyish dreams
I've roamed with "Selkirk" o'er this isle;
How often leapt it's mountain streams!
How often passed each dark defile!
And when the noon-day sun was hot,
I've sought some myrtle-shaded spot
Far from the busy haunts of men,
And, musing o'er these scenes so rude,
Have wished, and longed, and wished again,
To view this sylvan solitude!

Those youthful dreams are not forgot.
E'en now I think, what if perchance,
I stand upon the very spot
Where "Crusoe" taught his goats to dance?
What if the tree I'm standing near
Should be the one whereon he kept
His "*Calendar*," as year on year
Slow o'er the isle in silence crept?
And then these dark and gloomy caves,
That late have sheltered Chilian slaves—
What means the carving on the walls?
What mystery's hid in these rude halls?
A thousand dark conjectures rise,
Of crimes, though veiled from human eyes,
Yet in the Mighty-Ledger wrote,
With all the "deeds of dreadful note."*

But I must linger here no more,
The boat is putting off from shore,
The anchor's weigh'd, and from the hills
A gentle breeze the "spanker" fills—
And though I leave these scenes for aye,
To roam in stranger lands awhile,
Yet ne'er shall I forget the day
I pass'd upon the "Lonely Isle."
One last adieu, to wood and dell,—
Juan Fernandez, fare thee well! L. M. N.

*These lines were suggested by the writer's finding in one of the caves a portion of the skeleton of the human hand!

To my Husband,

IN HIS ABSENCE TO CALIFORNIA

BY MRS. CHARLES S. PALMER, OF N. YORK.

Kind friends are around me, they bid me be gay,
With merriment now to chase sadness away.
Yes, 'round me they cluster, the lov'd and the dear;
Yet still I am lonely, for thou art not here.

They bring me sweet music—a heart-thrilling strain,
But to me its sweetness is mingled with pain;
The tones breathe but sadness, my eye sheds the tear,
For still I am lonely, for thou art not here.

They bid me join in the laugh, and be glad:
I try—the sound dies in a feeling most sad,
And strangely and wild does it fall on my ear,
For oh, I am lonely, for thou art not here.

They bring me gay flowers, and show me the tints
That Nature upon them so gorgeously prints;
They heap the bright blossoms around me and near;
Yet still I am lonely, for thou art not here.

They tell me of wonders that Nature has done,
But ere to recount them they've scarcely begun,
The words but a sound of confusion appear
For oh, I am lonely, for thou art not here.

They bid me to list to the voice of the wind,
They say that its breathing can quiet the mind.
Some spirits it may, but not mine, it is clear,
While thus, I am lonely, for thou art not here.

They bid me to go where festivity reigns,
Where Fashion has bound her poor votaries in chains,
But e'en 'midst the tinsel and jewels all's drear
To me, for all's lonely while thou art not here.

They bid me to join to the swift gliding dance,
To escho the laughter, to smile at each glance,
'Tis all a vain effort, I smother the tear,
Alas! I am lonely, and wish thou wert here.

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only a few hundred yards above Sutter's Embarcadero, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation possesses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investments than this town, as in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J.
